

The image shows two young girls standing in front of a height chart on a white wall. The girl on the left is wearing a teal shirt and yellow shorts, and the girl on the right is wearing a yellow sleeveless top and blue pants. They are both reaching up to touch the 130 cm mark on the chart. The chart has green horizontal lines and numbers: 100, 110, 120, 130, and 140. The background is a plain white wall.

CID Symposium

October 28, 2016

Programme of the day

- 10:00 – 10:30h Welcome and registration
- 10:30 – 10:50h Prof. dr. Nick Martin (University of Queensland, Australia)
What GWAS studies are telling us about the origins of psychiatric comorbidity
- 10:50 – 11:10h Prof. dr. Dorret Boomsma (VU University Amsterdam)
Recent results in childhood studies from GWAS
- 11:15 – 11:55h Dr. Annelien Bredenoord (University Medical Center Utrecht)
Ethics of pediatric biobanking
- 12:00 – 13:30h Lunch, poster market and meet-the-expert
- 13:30 – 13:50h Prof. dr. Jay Belsky (University of California, USA)
Internal-health vs. External-environmental predictors early in life of adolescent development
- 13:50 – 14:10h Prof. dr. Maja Deković (Utrecht University)
Zooming into external-environmental predictors: Parenting
- 14:15 – 14:35h Prof. dr. BJ Casey (Cornell University New York, USA)
Individual differences in frontolimbic circuitry and function with adolescent changes in endocannabinoid signalling across species
- 14:35 – 14:55h Prof. dr. Hilleke Hulshoff Pol (University Medical Center Utrecht)
Influences of genes and environment on development of the brain network in adolescence
- 15:00h High tea
